

Emergency Evacuation Plan

Operation & Maintenance Dept.
Bahrain Branch

For your safety, please follow the steps below in case of fire:

1. If you notice a fire or smoke, alert others by activating the building fire alarm by breaking the glass of any

call point

located in the corridors and call extension numbers **123** or **555** (from 8 AM to 8 PM)

or extension no. **157** (24 hrs) from a safe location.

2. Confine the fire by closing the doors.

(University internal doors are fire rated doors).

3. Evacuate immediately. Go to the nearest exit or stairway by following the emergency exit signs.

4. NEVER use an elevator during a fire emergency.

(University elevators are designed to automatically stop at the ground floor in case of fire alarm is activated).

5. Assemble at the Fire Assembly Point located at carpark exit gate.
6. Remain outside the building until the competent authority or emergency personnel announces that it is safe to re-enter the building.

Important Safety Tips During A Fire:

- During a fire, Crawl on the floor.

Heat and smoke rises, so if you stay low during a fire, you could be exposed to 300° Smoke.

- Before opening any door, feel the door first. If it is hot, don't open the door. If it isn't hot, open it slightly, and if heat or heavy smoke is present, close the door and leave by an alternate exit.

FIRE EXTINGUISHERS AND THEIR USES

Our University has the following types of fire extinguishers:

WATER EXTINGUISHER

**USED TO FIGHT
CLASS (A) FIRE**

**DANGER DO NOT USE ON LIVE
ELECTRICAL EQUIPMENT**

*Used to fight the following
types of fire :*

- ❖ PAPER
- ❖ WOOD
- ❖ CLOTH
- ❖ RUBBER
- ❖ MANY PLASTIC

FOAM EXTINGUISHER

**USED TO FIGHT
CLASS (B) FIRE**

**DANGER DO NOT USE ON LIVE
ELECTRICAL EQUIPMENT**

*Used to fight the following
types of fire :*

- ❖ OIL
- ❖ OIL — BASED PAINT

FIRE EXTINGUISHERS AND THEIR USES

DRY POWDER EXTINGUISHER

**USED TO FIGHT CLASS
(A) + (B) + (C) + (D) FIRE**

DANGER SHOULD NOT BE EXPOSED TO DIRECT SUN LIGHT AND IT SHOULD NOT BE USED IN SMALL AND CLOSED AREAS TO AVOID SUFFOCATION

Used to fight the following types of fire :

- ❖ BURNING METELS (SPECIAL KIND OF POWDER)
- ❖ LIQUERIBLE SOLIDS
- ❖ FLAMMABLE GASES
- ❖ ENERGIZED ELECTRICAL EQUIPMENT

CARBON DIOXIDE (CO2) EXTINGUISHER

**USED TO FIGHT CLASS
(A) + (B) + (C) FIRE**

DANGER THE FIRE EXTINGUISHER SHOULD NOT BE EXPOSED TO DIRECT SUN LIGHT AND IT SHOULD NOT BE USED IN SMALL AND CLOSED AREAS TO AVOID SUFFOCATION

Used to fight the following types of fire :

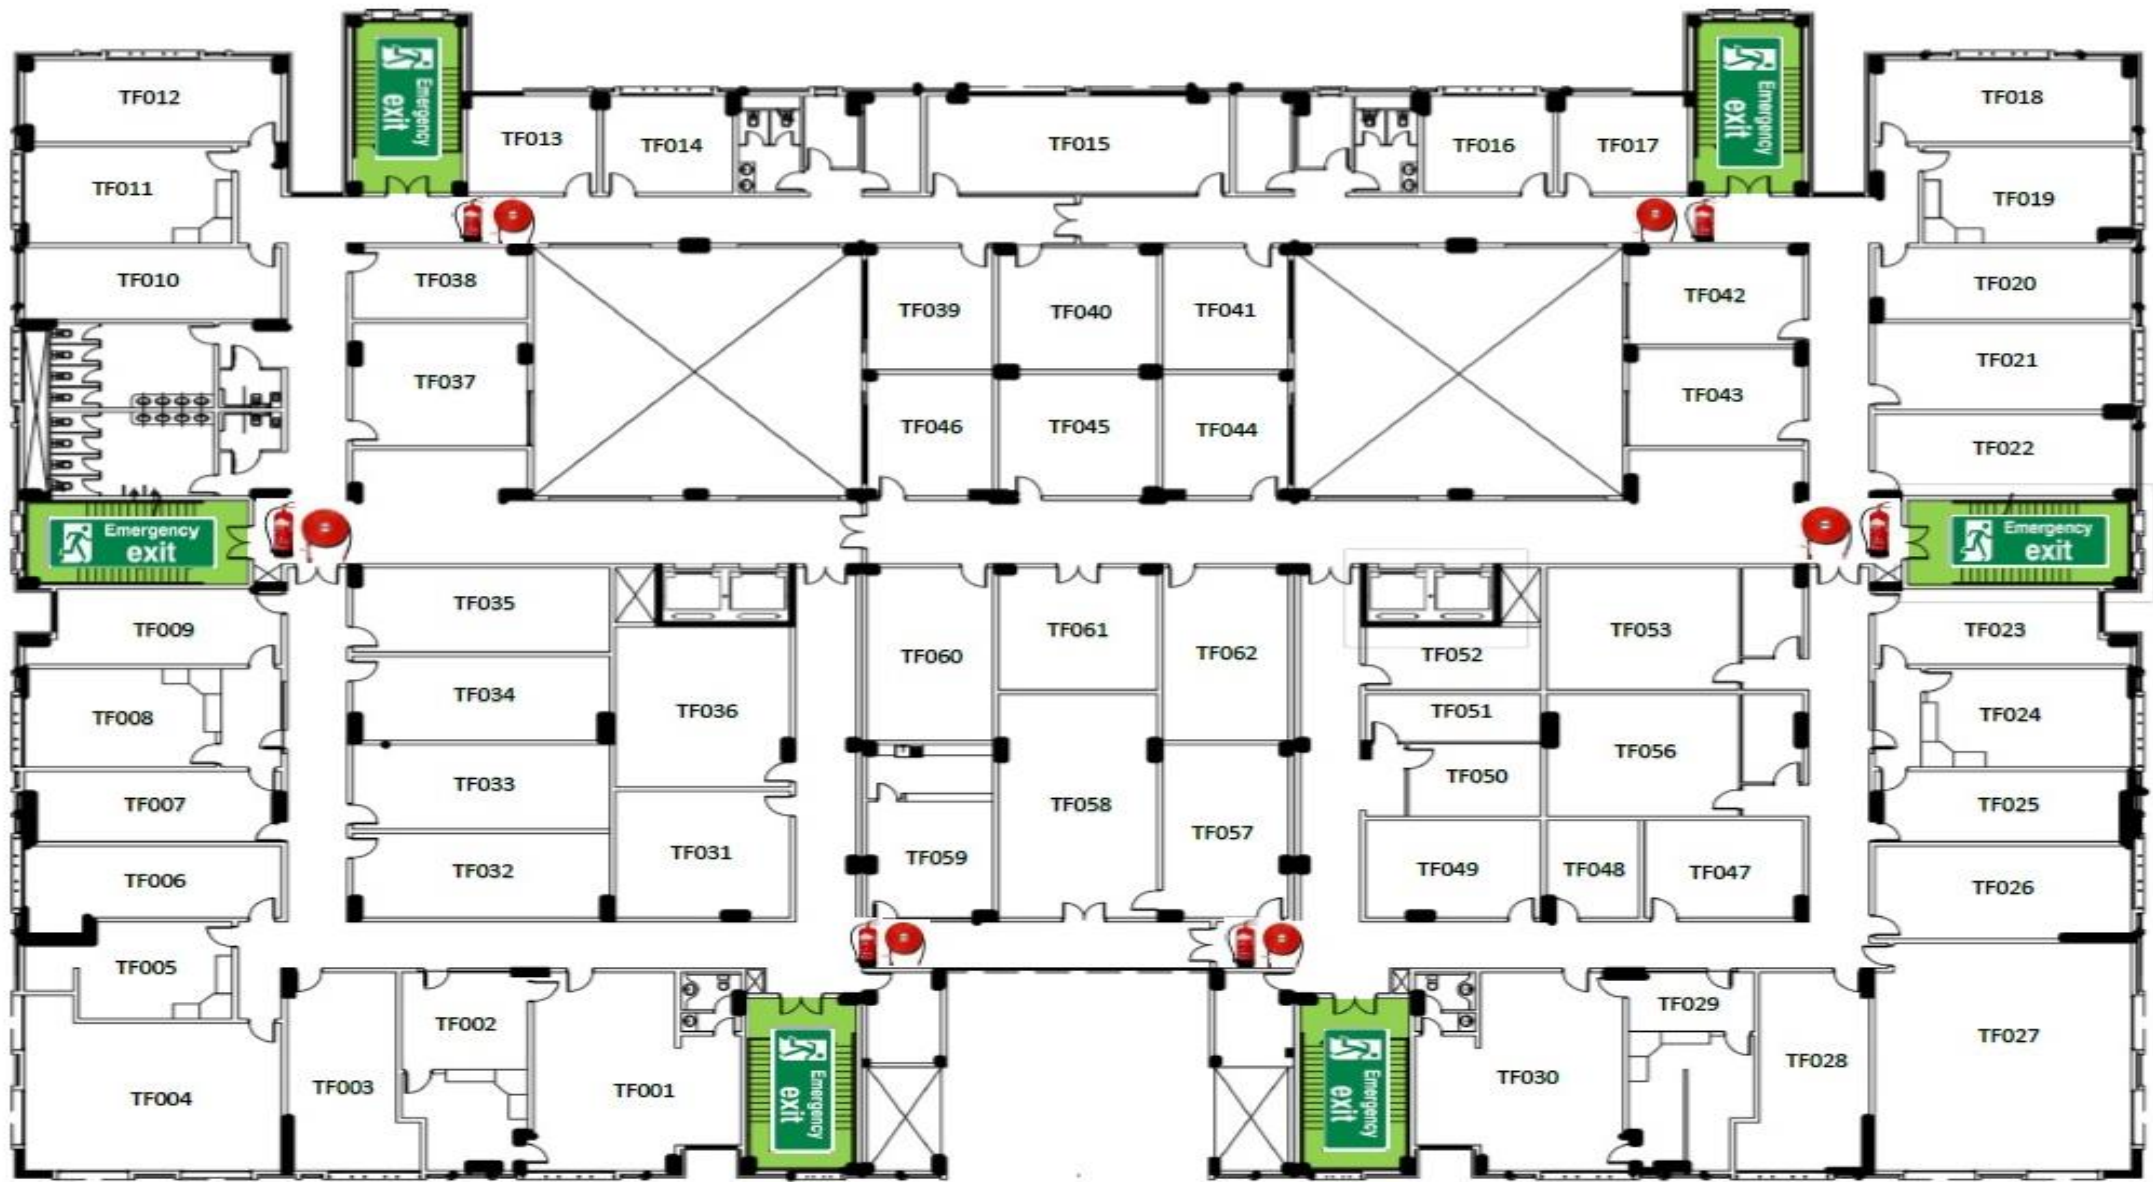

- ❖ ENERGIZED ELECTRICAL EQUIPMENT
- ❖ FLAMMABLE GASES
- ❖ ORDINARY COMBUSTIBLE MATERIALS

AOU Building Emergency Floor Plans

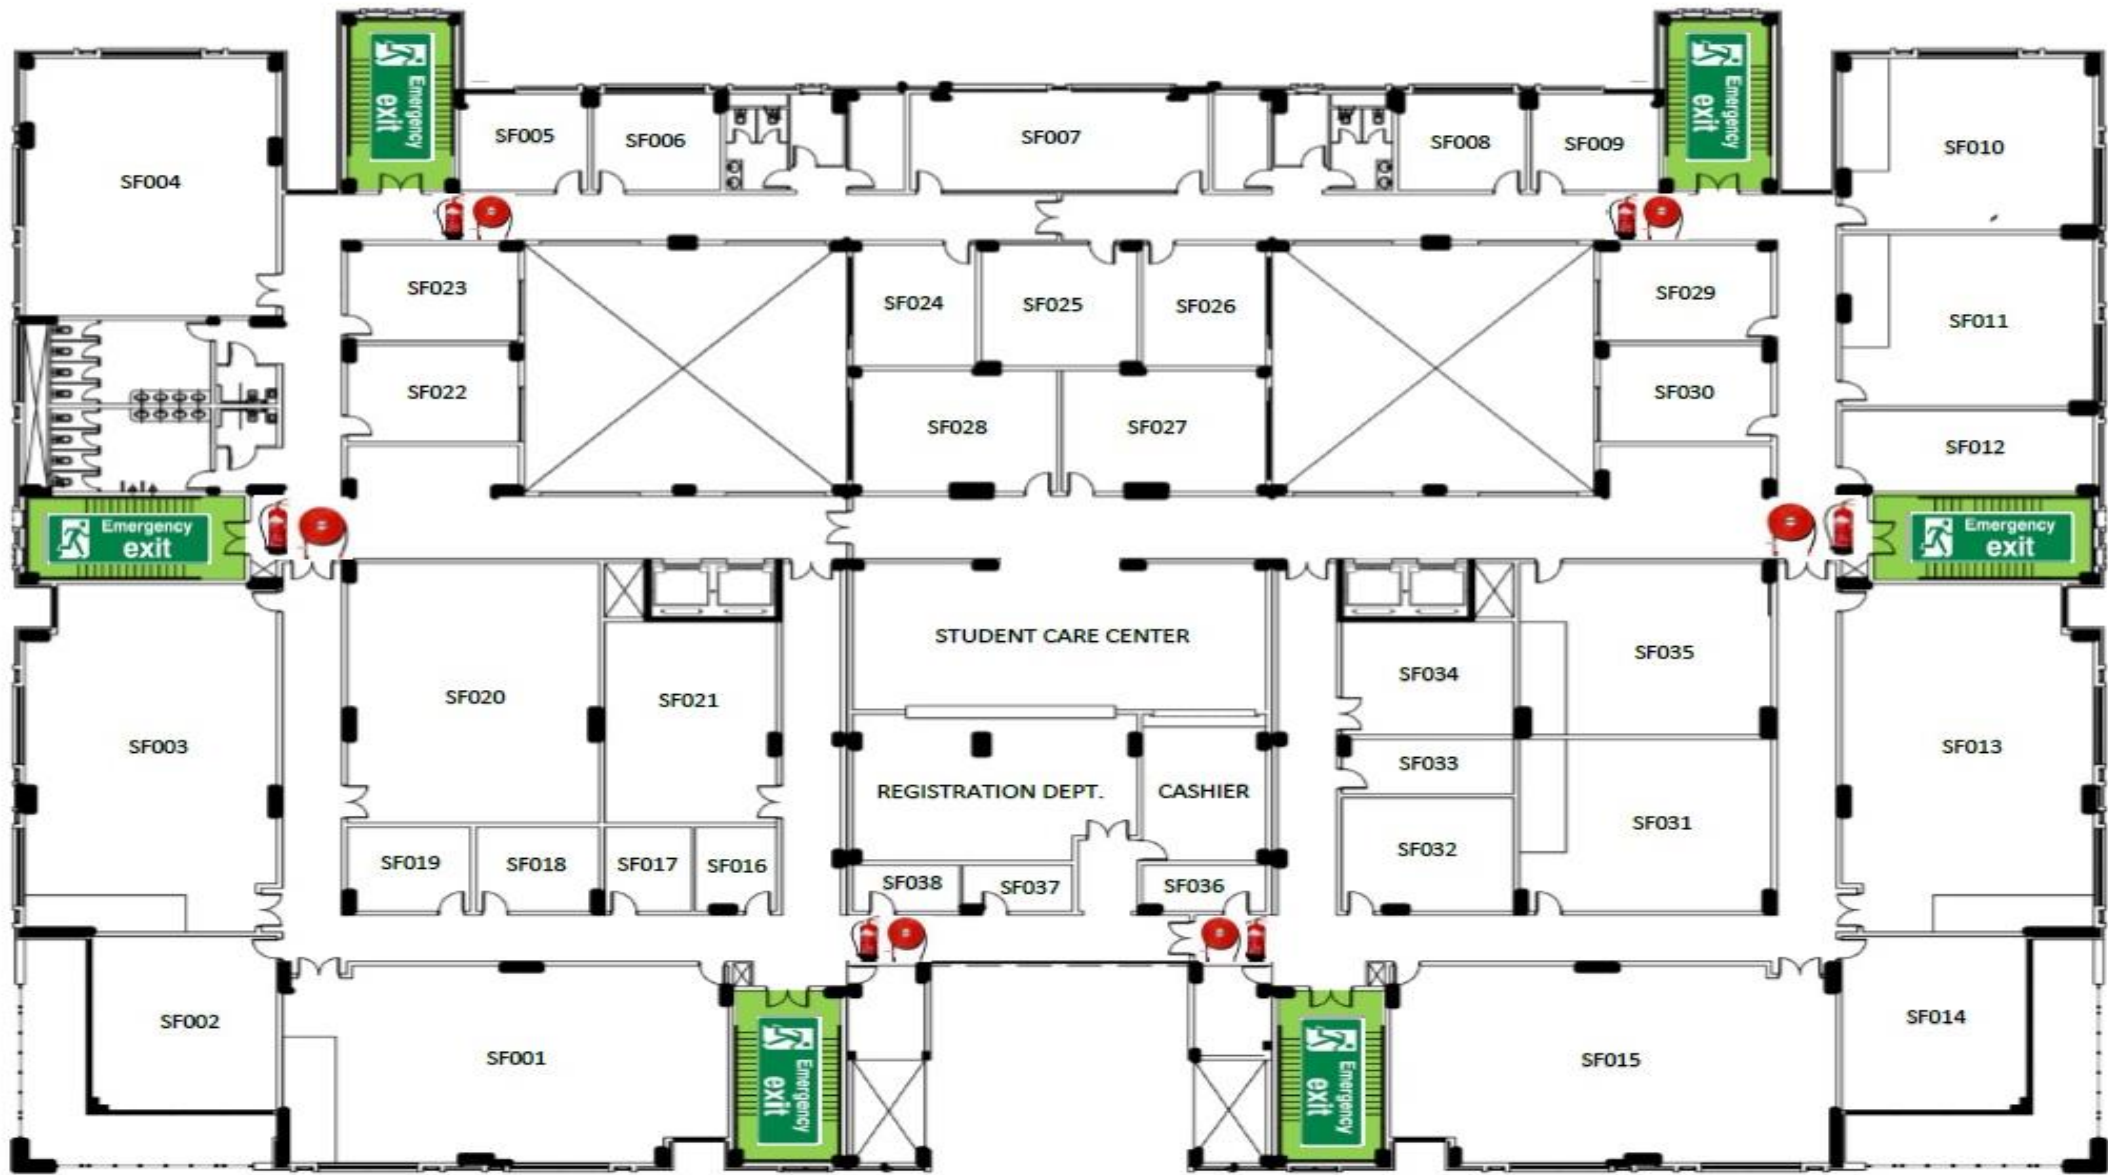

Please review the floor plans below showing the locations of emergency exits, fire extinguishers and fire hose reels located at each floor.

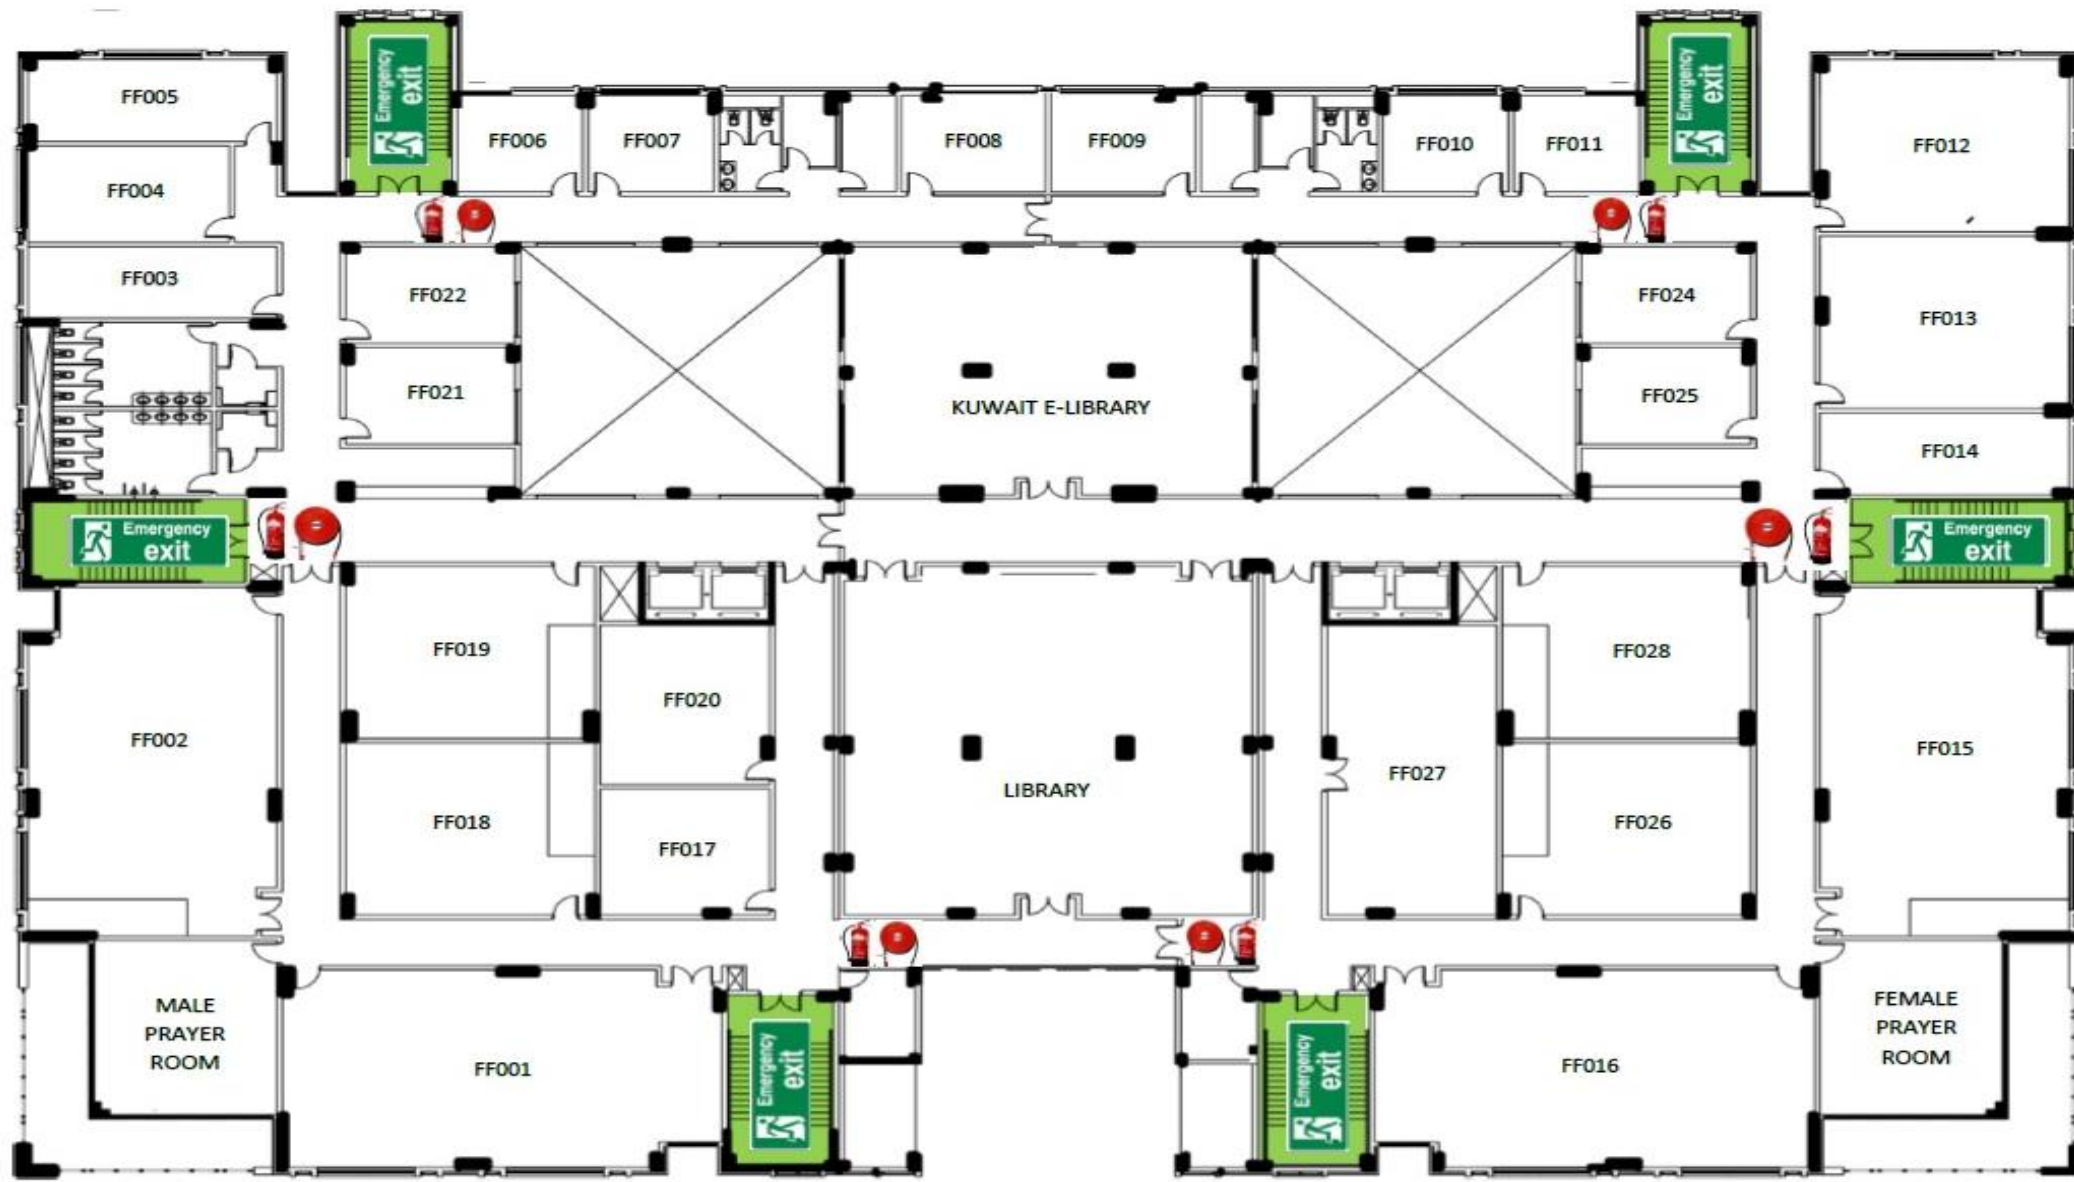

THIRD FLOOR

	Emergency Exits
	Fire Extinguisher
	Fire Hose Reel

SECOND FLOOR

	Emergency Exits
	Fire Extinguisher
	Fire Hose Reel

FIRST FLOOR

	Emergency Exits
	Fire Extinguisher
	Fire Hose Reel

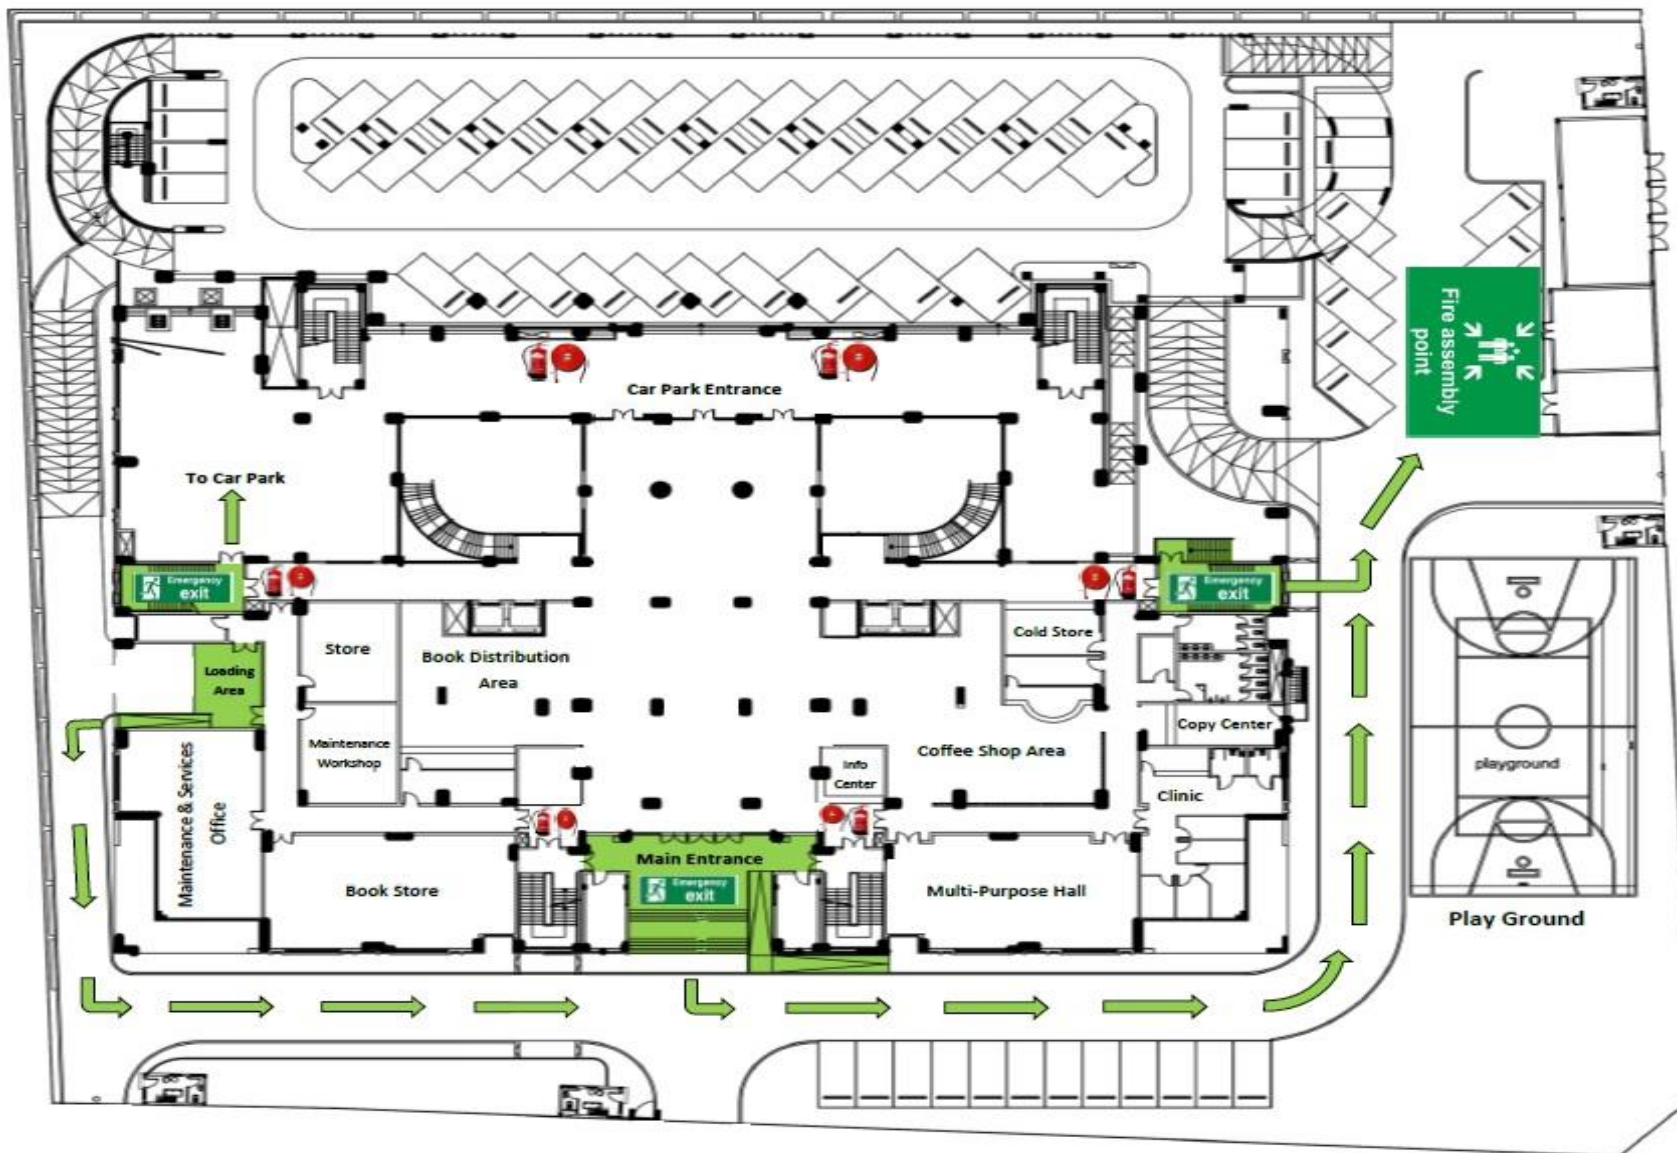

If you are in the Atrium area, use the curved stairs to go to Ground Floor.

If you are inside the Auditorium, use the emergency exits beside the stage.

BASEMENT FLOOR

Ground FLOOR

WE WISH YOU ALL A SAFE WORKPLACE
